<b>Aim</b>		To generate long term capital growth with a relatively high, yet sustainable, flow of income for the fund.
<b>Style</b>		Actively managed
<b>Asset Mix</b>		High Yield Equities
<b>Managed by</b>		Bloxham
<b>Risk</b>		High Risk

## FUND DESCRIPTION

The Bloxham High Yield Fund allows investors to benefit from investing in global shares that pay high dividends and is suitable for customers who want:

- ✓ Diversification through global equities
- ✓ A focus on the largest and most robust companies in the world
- ✓ A fund that aims to generate a high dividend income which increases over time

### High Yield Equities

The Bloxham High Yield Fund invests only in equities that pay higher than average dividends on a sustained basis<sup>1</sup> (known as high yielding equities). The logic behind this investment strategy is that the type of companies that can achieve sustained higher dividends generally provide stable growth opportunities going forward.

For this very reason, high yield funds have been one of the most popular areas of investment for decades.

### Why do dividends matter?

Essentially, the payment of dividends is a powerful message by companies to stock markets and investors about the company's future prospects and performance. It is one of the simplest ways that a company can announce its financial well-being.

<sup>1</sup> From time to time, there will also be an element of cash held by the Fund

### Stock selection

The Bloxham High Yield Fund invests in a well-diversified (across country and sector) basket of between 50 and 70 equities. Because of the number of equities the Bloxham High Yield Fund is referred to as a 'concentrated' equity fund.

Before a stock is added to the Fund, Bloxham carry out a number of financial tests and ensure specific criteria are met that indicate the Company:

- is financially strong with stable earnings growth expected
- has an attractive and sustainable dividend yield
- has low debt to equity ratio i.e. the company has low levels of borrowings.

Typically it is large companies that usually display such criteria.

These financial tests aim to reduce the level of risk experienced by the fund when compared to the broader equity market.

### Bloxham

Bloxham are our chosen investment partners for the High Yield Fund. Bloxham is an independent financial services provider that has been operating in Ireland for over 100

years. The Bloxham team has a strong background in product development and investment management and combines traditional investment vehicles with new ideas to create exciting investment opportunities.

### Risk Rating – High Risk

Bank of Ireland Life has rated the Bloxham High Yield Fund as a high risk investment fund. The potential return from high risk investments is much higher than deposits and inflation. High risk funds focus on maximising the potential return to investors, rather than minimising risks. Some high risk funds may consist almost entirely of one asset class based for example in one geographic region or in one sector. Investors' capital is not secure and may fluctuate significantly and investors may get back less than they originally invested.
